product catalog

2013

AM Distributors • 1700 W. 16th Street • Broadview, IL 60155 • (708) 345-1300

As we begin 2013, we first want to thank you – our Authorized Code Alarm Dealers – for your unwavering loyalty, enthusiasm and support. Many of your suggestions and ideas have gone into this year's line-up, and we look forward to continue working with you to make Code Alarm the best Vehicle Security and Remote Start product on the market today. We are excited to round out the 2013 product line-up with the addition of the new PROCOMP - that includes our Digital Tilt Sensor and Backup Battery Siren as standard features and CA5153SST - with up to 1 Mile operating range in a 1 Way Remote Start with Keyless Entry system. These new products and development innovations demonstrate our mission to remaining a category leader, while providing the best-in-class support to the people that make it all happen: In-field Sales Team, Order Entry Department, Warranty Service and our MECP Certified Technical Support Team. From top to bottom, the Professional Series is a complete robust product line-up, featuring chrome metal remote controls and substantive feature/function upgrades – giving you all the gear you need to up-sell customers with higher-profit systems. What's the bottom line? Industry leading performance at truly competitive price points. We built the Professional Series competitively, so you can market them aggressively. Again, we thank you for your continued commitment. And if you're not a member of the Code Alarm team, we urge you to sign up today. Our efforts are aligned toward one important goal: to make Vehicle Security and Remote Start category a success for you in every way.

Count on a pro to Deliver

Add additional accessories to enhance the security or remote start system and increase your profits.

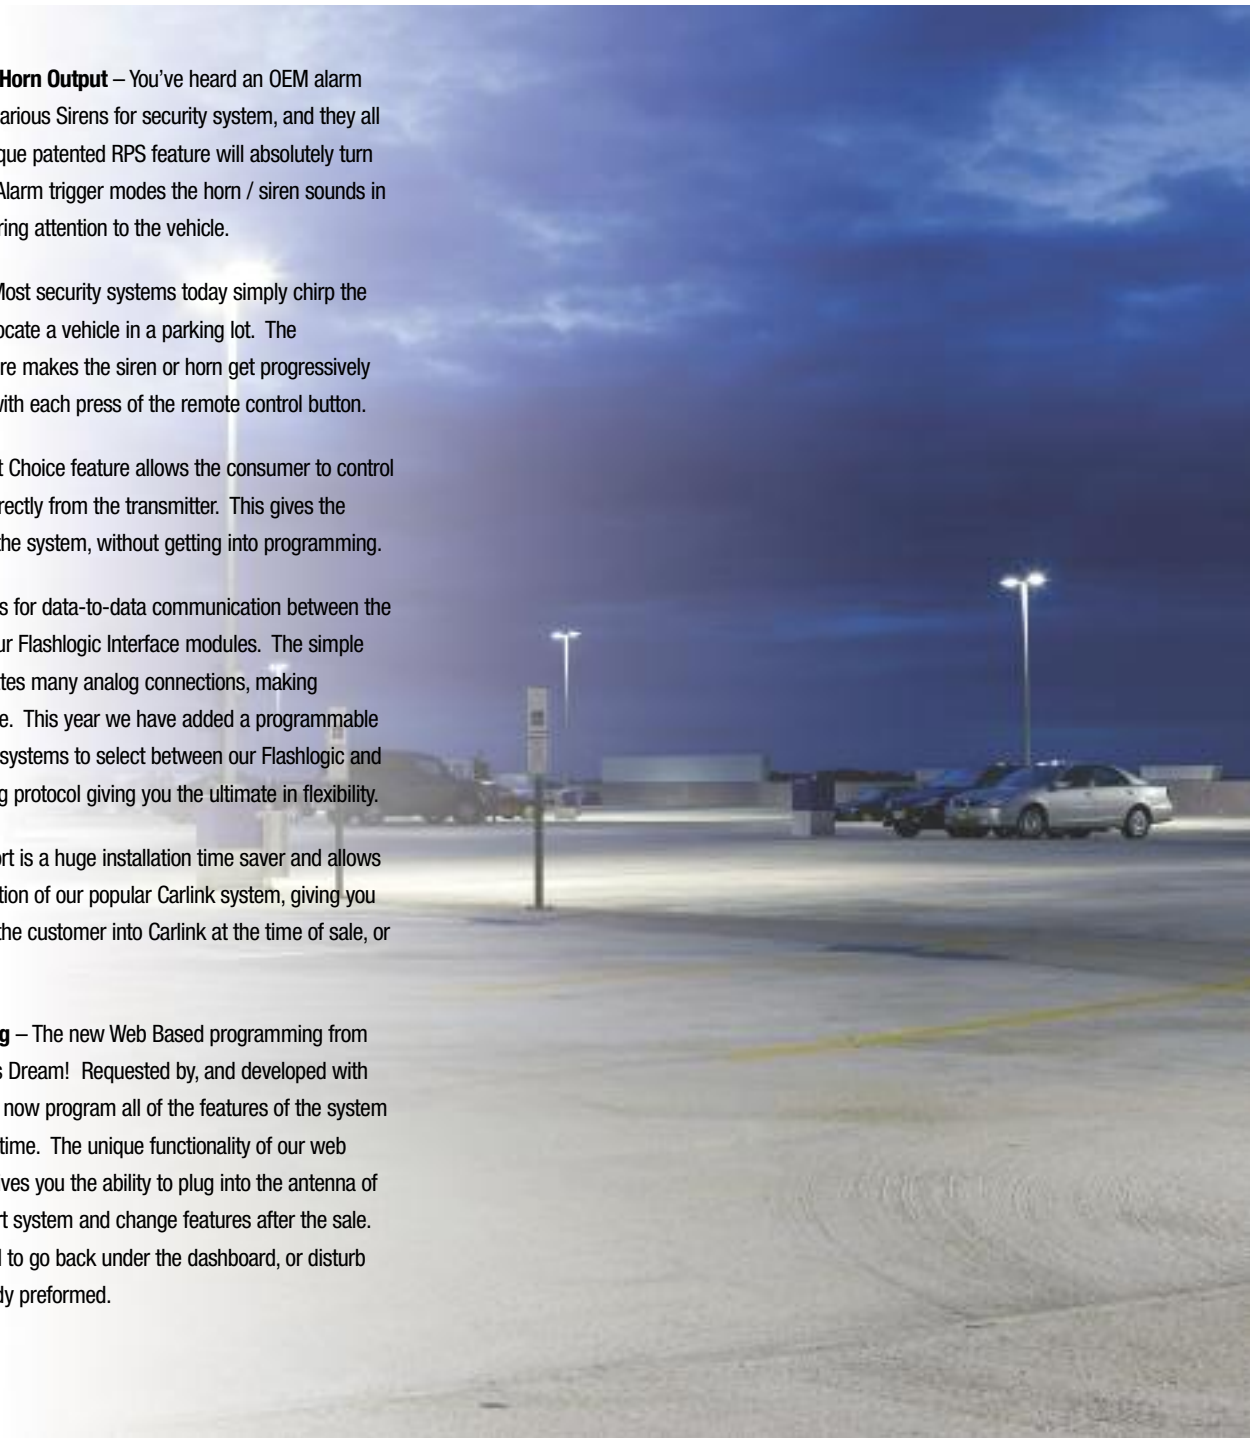
Backup Battery Siren

FLASHLOGIC

FlashLogic Transponder & Door Lock Interface Kits.
Many vehicles utilize a factory "immobilizer" code to help deter vehicle theft. This product is designed to reproduce this "special code" to allow the vehicle to use a Remote Start System.

The Code Alarm Solution

For over 35 years Code Alarm has set the standard in award winning Security and Remote Start systems with features consumers want, and innovative technology to help the technicians with installation. Here are some of the features that make up The Code Alarm Solution:



RPS (Real Panic Sound) Horn Output – You've heard an OEM alarm Horn Honk, You've heard various Sirens for security system, and they all sound the same. This unique patented RPS feature will absolutely turn heads. During Panic and Alarm trigger modes the horn / siren sounds in a randomized pattern to bring attention to the vehicle.

Progressive Car Find – Most security systems today simply chirp the vehicle's siren or horn to locate a vehicle in a parking lot. The Progressive Car Find feature makes the siren or horn get progressively louder, low / med / high, with each press of the remote control button.

Silent Choice – The Silent Choice feature allows the consumer to control the arm / disarm chirps directly from the transmitter. This gives the consumer total control of the system, without getting into programming.

DBI Port – This Port allows for data-to-data communication between the Code Alarm system and our Flashlogic Interface modules. The simple plug-in installation eliminates many analog connections, making installation fast and reliable. This year we have added a programmable feature in the Code Alarm systems to select between our Flashlogic and ADS (I-Data Link) operating protocol giving you the ultimate in flexibility.

Telematics Port – This port is a huge installation time saver and allows for a quick plug-in installation of our popular Carlink system, giving you the opportunity to up-sell the customer into Carlink at the time of sale, or upgrading at a later date.

Web Based Programming – The new Web Based programming from Code Alarm is an Installers Dream! Requested by, and developed with actual installers! You can now program all of the features of the system right on the bench saving time. The unique functionality of our web based programmer also gives you the ability to plug into the antenna of the security or remote start system and change features after the sale. Thus, eliminating the need to go back under the dashboard, or disturb any of the work you already preformed.

ASCL2

Smartphone Interface Module

Standard Features:

- 1st year of unlimited use included
- Two-way Confirmation
- Lock and Unlock your doors
- Start your vehicle – from virtually anywhere in the world!
- Control your Car Find feature (horn honk)
- Two Auxiliary Outputs (e.g. control Trunk Release or Sliding Door Open)

GPS Features:

- Annual Service Contract required - not included with 1st year of standard service
- Vehicle Locate – Satellite and Street views with GeoFence overlays.
- GeoFence – 3 GeoFence locations per vehicle that sends a text or email for vehicle entry, exit or both.
- Speed Alert notification
- Low Battery notification
- Curfew Alert - An alert will be sent with vehicle location at the specified time.
- Security Fence – Sends a text or email if vehicle moves a specific distance from the location.

PROCOMP

Two-Way 900 MHz Long Range OLED Command Confirming Transmitter

- Long Range Up to 1 Mile
- (1) Two-Way 900MHz Long Range OLED Display 5-Button Remote Control
- (1) One-Way 900MHz Long Range 6-Button Remote Control
- MBS – Battery Back-up Siren Included
- DUB1 – Digital Tilt Sensor - Included
- Will Accept up to 4 Remote Controls
- Silent Choice
- Glass Mount Antenna with Built-in Blue LED Light and Valet Switch
- Dual Stage Magnetic Shock Sensor (Lite Touch – Full Trigger)
- RPS - Real Panic Sound Horn Output
- Starter Interrupt – On-board Relay
- Trunk Release – On-board Relay
- Flashing Parking Lights – On-board Relay
- Negative Door Lock Outputs
- (5) Auxiliary Outputs – 1 can be used for Defrost
- (2) On-board Accessory / Heater Relay
- (2) On-board IGN Relays with Programmable Output
- Progressive Car Find
- 2 Car Mode
- Diesel Compatible
- Quick Stop Mode
- Start Confirmation Parking Light Flash
- 24 Hour Time Start Mode
- Cold Temperature Start Mode
- Alarm Clock Mode
- Parking Meter Count Down Timer
- Tachless Mode
- Hybrid Vehicle Compatible for Remote Start
- DBI Port – Flashlogic or I Data Link Protocol
- Telematics Port – Carlink Ready
- Up to $2,500 Theft Protection Guarantee
- Limited Lifetime Warranty

ABOUT VOXX INTERNATIONAL CORPORATION

VOXX International Corporation (NASDAQ:VOXX). The Company that began as Audiovox over 45 years ago has morphed into a worldwide leader in many automotive and consumer electronics and accessories categories, and now into premium high-end audio. The company's brands hold leading market positions across a wide-spectrum of consumer and automotive segments.

Today, VOXX International is a global company….with an extensive distribution network that includes some of the world's Fortune 500 companies and an international footprint in Europe, Asia, Mexico and South America, and a growing brand portfolio, which is now comprised of over 30 trusted brands including Klipsch®, RCA®, Acoustic Research®, Jamo®, Energy®, Mac Audio®, Magnat®, Heco®, Schwaiger® and Oehlbach® in addition to those brands marketed by Audiovox Electronics Corporation. The company continues to drive innovation throughout all of its subsidiaries, and maintains its commitment to exceeding the needs of the consumers it serves. For additional information, please visit our Web site at www.voxxintl.com

VOXX International and all of its family of brands are committed to helping save our environment. To that end, all printed materials produced by us are printed on recyclable paper using only biodegradable eco friendly coatings. We use soybean rather than petroleum based inks. Our printing presses have "Purge on Press" capability; use no alcohol and therefore result in no vapor pollutants in the air.
